ANTICOR®

B-s1, d0

Fire reaction classification
according to EN 13501-01

**OPTIMAL SOLUTION
FOR DEMANDING
APPLICATIONS**

RUBBER FOAM TAPE 600 PREMIUM

excellent adhesion

**single-sided adhesive,
flexible**

**PET mesh reinforcement:
strength and stability**

easy application

**frost-resistant - coated
with low-temperature
acrylic adhesive**

**resistant to water vapor
diffusion**

**resistant to stretching
and aging**

**resistant to weathering
(including UV), moisture**

50 mm x 15 m | 100 mm x 15 m

Apply to a dry, clean, degreased surface,
free of other contaminants.

To achieve excellent adhesion, the tape
should not be applied under excessive
pressure; apply appropriate pressure with
your hand or a squeegee.

Optimal application temperature: 10 ÷ 40°C.
